Certification and Authorization Policy

I certify that the information on this form is accurate and complete. I am requesting reimbursement for eligible expenses incurred by myself or an eligible dependent while I was a participant in the plan. I have already received these products and services and have not been previously reimbursed for these expenses and I will not seek reimbursement of these expenses from any other plan or party. In addition, the expenses for which reimbursement is sought will not be claimed as tax deductions on my personal tax return. I understand that if an expense is determined to be ineligible, I am responsible for reimbursing the plan(s) for any such expense or for payment of all related income taxes on amounts paid from the plan(s) which relate to such expense. If I am covered under more than one health care account, reimbursement will be made according to the payment order determined by those plans. If I am requesting reimbursement for work-related dependent care expenses incurred for care provided by a valid dependent care provider to an eligible dependent (for children under the age of 13 or other transit or parking benefits, these are my own personal expenses and all expenses for which reimbursement is claimed were incurred for parking at or near the business premises of my employer, or near a location from which I commute to work, and/or for regular daily direct commute from home to work and return. If no receipt is provided for commuter expenses, this service provider does not provide receipts (such as payments made by token/ticket machine, meter or cash box). If this is a Public Transportation expense, then the pass for this service in this amount is not available for purchase from my employer or plan service provider. This certification also applies to any Flex Debit Card payments where receipts are submitted for verification.
